

Gollins

Consulting Engineers, LLC

Firm Profile

Gollins Consulting Engineers, LLC (GCE) is a Chicagoland based consulting engineering firm specializing in retail, restaurant, and commercial projects. Being a small but nationally recognized firm has allowed us to deliver timely cost effective and competitively priced drawings as demonstrated by our 23-year track record.

We work with Architects, Owners, & Property Management companies. We also work with (confidentially, as required) with A & E firms. We can either site adapt prototypes or a "go-by" MEP set of drawings using our own AutoCAD standards. Surveys are also available but typically furnished by others.

Mike Gollins, PE - Project Principal

After graduating from the Illinois Institute of Technology with a Bachelors in Mechanical Engineering, Mike worked for TKG Consulting Engineers in San Diego and after passing the PE Exam, came back to Chicago and started his own practice in 2000. Mike is involved and knowledgeable in all aspects of MEP to ensure every project is cost effective solution and delivered on schedule.

While building his company and raising a family, Mike also served in the US Naval Reserves as a Seabee and after 20 years, retired in 2010. Thinking his specialized engineering skills could add value again, he decided to join the US Army Reserves in 2020 and currently serves as a Chief Warrant Officer.

GCE and all staff, including work with previous employers, have never been involved in any litigation and have never made an insurance claim.

Services

Mechanical Design
Plumbing Design
Electrical Design

Key Personnel

Mike Gollins, PE
Founder and Principal
